### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ed Gamson on 08 June 2006.

The application has been amended as follows:

#### In the claims:

- 1) In claim 25, delete - - - homology - - - and substitute therefor - - - identity - - -
- 2) In claim 25, insert after "90 amino acids" - - -, wherein the glycosylation pattern is different from naturally occurring KLH from *Megathura crenulata*. - - -
- 3) In claim 33, delete - - - e.g. - - -
- 4) Cancel claims 39-42.

### Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The claims are drawn to sequences from the keyhole limpet haemocyanin subunit 2 (KLH2) from *Megathura crenulata* and specific sequences from several of the individual domains. The claimed invention differs from the prior art of record because Applicants have successfully shown that the glycosylation patterns of their invention is distinctly different to that of Gebauer et al. and that which is sold by Sigma Inc. because KLH from *M. crenulata* have novel and distinct glycosylation patterns as evidenced by Kurokawa et

al. (cited on IDS from 30 March 2006) and Geyer et al. (cited on IDS from 30 March 2006). Production of KLH2 outside of the naturally occurring host will necessarily induce a different glycosylation pattern and thus Applicants have successfully demonstrated that the claimed invention is necessarily and inherently different than that of the prior art. **The allowed claims are 25, 32-35 and 38.**

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
